

Sprint 2 Report

Product name: GAR

Date: Nov 10, 2018

Actions to stop doing:

We did not contribute enough time on the project during midterm. People were not prepared for the scrum meeting.

Actions to start doing:

We need to start meeting and working our project on the weekend because we are behind the schedule. (We had tried working together over the last weekend, and we have made some progress on our project.)

Actions to keep doing:

We are going to push ourselves on the project. And we will keep grouping during the weekend whenever we can make grouping happen.

Completed:

1. As an user, I want create an account that I can start apply a free ride, or answering the request as a driver.
2. As an user I want login the website, that I can login as a passenger to apply a free ride, or login as a driver to answering a request
3. As an user, I am able to find the password that I can login the website again
4. As a develop, I am able to connect the data to the frontpage UI
5. As a developer, I need develop new rider page, so that people be able to start a new rider
6. As a developer, I need develop new rider page, so that people be able to start a new rider
 - B.Connect the database to the new rider page(1)
 - C.Create new request successful page(1)

Not completed:

6.
 - A.New rider page UI (5)

As a developer, I need to connect register page to the database, so that people be able to register their ID.

Work completion rate:

The total number of user stories are 6. (4 incomplete user stories from Sprint 1 and 2 from sprint 2), We almost complete all the user stories except 6.C that I mentioned above.
