Sprint 2 Plan

Product name: GAR
Team name: 9ight
Sprint completion date: Nov 04
Revision number: 1.0
Revision date: Oct 24, 2018

**Goal**
To create a nice UI interface, such as the login, register, find password. Connect the front page to the database, which can get the correct user information from the registered user.

Sprint 1:
We mainly focus on the UI that are expected to be used.

1. As a developer, I need to connect register page to the database, so that people be able to register their ID.

   A. Create database table(1)
   B. Link the datatable to the register page(3)
   C. Check the user is existed or not(1)
   D. Create register error page(1)
   E. Create register successful page(1)

2. As a developer, I need develop new rider page, so that people be able to start a new rider
   A. New rider page UI (5)
   B. Connect the database to the new rider page(1)
   C. Create new request successful page(1)

**Team roles**
FanChao Kong: Team leader, set up the meeting, programmer, decision maker
Xince Shi: Programmer, Debugging test
Zhong Huang: consultant, database set, guid the project, programmer, UI designer
Jinjun zhen: Programmer, Debugging test, document writer

**Initial task assignment:**
Fanchao Kong: I suggest to make the project that can help other students who want to have a free ride. Decide the project we want to do. Decide the programming language and the database that the team will be used.

Zhong Huang: I want to create a user friendly website for the user. Create a nicely looking UI for the website. Separate the part of the project, study the difficult technique for the teams, to make sure that we can finish the challenging or not. Design the table of the database, and create the table. Draw the flowchart of the project, to make sure the process of the project is correct.

Xince Shi: I want to have more experience of coding, and know the processor of the project better. Help to Improve the UI design, database, flowchart.

Jinjun zhen: I want to know the processing of develop a project, and learning the coding and database. Finish documents, such as spring plan Release plan, presentation.

**Initial burnup chart**
