Sprint 4 Plan

Product name: GAR
Team name: 9ight
Sprint completion date: Dec 02
Revision number: 1.0
Revision date: Nov 25, 2018

Goal

       The goal of sprint plan 4 is to make our website more user-friendly. Beside the basic mapping functions, users should be able to edit their email address and password from their profile. They can also check the history of what ride they have involved to.

Sprints:

1. As user, be able to check the history list, so that they could track the ride they did.
    A. Passenger view request history (5)
    B. Passenger can cancel request (6)
    C. Driver can accept request, and cancel request (5)

2. As user, be able to edit password and email address so that accounts could be more manageable.
    A. User can edit password (5)
    B. User can edit email (5)

3. As driver, be able to receive essential passenger information so that drivers know who they need to pick up.
    A. User can receive passenger info when accept the ride in main page(5)
    B. User can receive passenger info when accept the ride in view page (5)

4. As developer, we need to test and debug our website to increase reliability. (Story four only reflects on unit test)
    A. Register/log_in/edit testing
    B. Request address/time testing
    C. Request/history list testing

Team roles

FanChao Kong: Team leader, set up the meeting, programmer, decision maker Xince Shi: Programmer, Debugging test

Zhong Huang: consultant, database set, guid the project, programmer, UI designer Jinjun zhen: Programmer, Debugging test, document writer

Initial task assignment:

Fanchao Kong: I suggest to make the project that can help other students who want to have a free ride. Decide the project we want to do. Decide the programming language and the database that the team will be used.

Zhong Huang: I want to create a user friendly website for the user. Create a nicely looking UI for the website. Separate the part of the project, study the difficult technique for the teams, to make sure that we can finish the challenging or not. Design the table of the database, and create the table. Draw the flowchart of the project, to make sure the process of the project is correct.

Xince Shi: I want to have more experience of coding, and know the processor of the project better. Help to Improve the UI design, database, flowchart.

Jinjun zhen: I want to know the processing of develop a project, and learning the coding and database. Finish documents, such as spring plan Release plan, presentation.
